Studio Edge Inset Wood Burning Fires

The Stovax Studio Edge inset fire is for those who require minimalist modern perfection. This contemporary wood burning fire has a seamless no-frame design, allowing your home's interior to frame and enhance the roaring flames. Combine this with the optional fan-assisted convection system and you can boost the flow of heat into your room whilst providing a beautiful focal point.

The Studio™ 500 has been specifically designed to fit into a standard 22" British fireplace opening without any additional building work.

KEY FACTS
