

NEO1F

Fitted with 4 short cylindrical legs, the Neo1F is ideal for installing into a fireplace recess as well as free standing installations.

Swept clean by the powerful airwash, the glass panel of the Neo1F offers excellent views of the fire.

Being a smoke exempt stove means that you can burn wood in smoke controlled areas allowing you to enjoy the pleasures of a real fire wherever you live.

The Neo models are all able to burn both wood and smokeless fuels offering you greater flexibility.

As with all the Neo stoves, the ashpan slides out towards you to enable the lid to be fitted to the ashpan. Then just simply lift the ashpan out and carry outside safe in the knowledge that the ashes are not going to blow around in the wind.

NEO1F Feature List

DEFRA approved

10 Year Warranty

This 10 year warranty covers all stove castings, it does not include consumable items such as glass and door seals. This full warranty is only honoured when the stove is purchased from one of our recommended retailers. If a stove from any of our brands is purchased from a non recommended dealer only a 12 month warranty will be honoured. Full details on this policy can be found on our warranty page above and full warranty details can be provided by our recommended dealers.
