

## View 7HBi High Output Inset Boiler Stove

---

The Stovax View 7HBi wood burning and multi-fuel inset boiler stove has the capability of efficiently heating a room and supplying domestic hot water and central heating for up to 8 radiators.

This contemporary integrated boiler stove has a cast iron door and large glass window to enjoy the burning flames. There is an optional extra of a glass top plate for a more contemporary look, and the plinth has a glass front as standard.

All Stovax High-Output boiler stoves are designed for multi-fuel use and incorporate a riddling grate. If wood burning only is your preference, you can still achieve good performance but, as logs burn best with slightly different firebox characteristics, we recommend you purchase the optional log tray.

### KEY FACTS

Brand Stovax

Multi-fuel with external riddling

Airwash - Yes

Efficiency 74% (wood burning) 77% (multi-fuel)

Nominal heat output to room 4kW

Nominal heat output to boiler 7.4kW
