

Huntingdon 25 Wood Burning Stoves & Multi-fuel Stoves

It may be the smallest stove in the Stovax Huntingdon range, but the Huntingdon 25 wood burning and multi-fuel stove provides virtually all the features of larger models and is specially designed to suit everything from a country cottage to a modern townhouse. It is ideal for burning logs yet is equally proficient with smokeless fuels or peat briquettes. In fact, the compact Huntingdon 25 is just the stove to bring you a picture of comfort.
