

## Riva Plus Midi Wood Burning Stoves & Multi-fuel Stoves

---

Stovax's Riva™ Plus Midi wood burning and multi-fuel stove is a little bigger than the Riva Plus Small, so will provide extra heating capacity to heat slightly larger rooms.

All Riva™ Plus stoves feature Cleanburn combustion systems. This means burning logs or solid fuels with outstanding efficiency. More heat is delivered in to the room and less heat goes up the chimney.

Riva™ Plus stoves are available either as dedicated wood burning stoves or as multi-fuel stoves with a specially designed riddling grate and has been approved for Smoke Control Areas.

### KEY FACTS
