

Stockton 6 Wood Burning Stoves & Multi-fuel Stoves

The superb combination of size and heating capacity make the Stovax Stockton 6 wood burning and multi-fuel stove particularly versatile. It is produced as a wood burning stove (easily adapted to multi-fuel use with the optional riddling grate kit) or as a dedicated multi-fuel version with external riddling.

Alternatively, you can choose the multi-fuel Stockton 6 Highline stove – a version that provides an impressive focal point in kitchens and open plan rooms. All models also accept the optional 'clip-in' steel boiler. This will provide an abundant supply of domestic hot water during the winter months.
